

DSM Intellectual Property (IP) is the global IP department of DSM. Serving all business groups of DSM, the activities include patents, trademarks, domain names, copyright, licensing in and out and IP issues in contracts. DSM Intellectual Property's mission is to create value for its clients based on strategy and relevant IP positions. Presently DSM IP has around 100 employees located in The Netherlands (Urmond and Delft), Switzerland (Kaiseraugst), USA, and China. For its office in Delft, DSM IP is looking for an enthusiastic and curious

DSM is active worldwide in life science products, performance materials and industrial chemicals. The group has annual sales of close to EUR 9.3 billion and employs about 23,500 people.

Patent Information Specialist (1FTE)

DSM creates innovative products and services in Life Sciences and Materials Sciences that contribute to the quality of life. DSM's products and services are used globally in a wide range of markets and applications, supporting a healthier, more sustainable and more enjoyable way of life. End markets include human and animal nutrition and health, personal care, pharmaceuticals, automotive, coatings and paint, electrical and electronics, life protection and housing. DSM is listed on Euronext Amsterdam.

Based on a strategic review of Vision 2010 in September 2007 DSM has decided to accelerate the group's shift to a specialty Life Sciences and Materials Sciences company, deliver faster growth, higher margins and improved earnings quality.

The Challenge

As a Patent Information Specialist you are part of a team serving the business. Together with the Patent Attorney you supply the business with the necessary information. The Patent Information Specialist's role in the team is to select, evaluate and report information so that the team can advise the business on decisions for the benefit of Intellectual Property Management. Your expertise allows you to extract reliable information out of all the databases that are available to you. You will be able to perform quick studies as well as more broad in-depth studies. In addition, you will be able to analyze patent positions in the course of which you will persistently know to handle and interpret an abundance of information.

The Ideal

You have at least a bachelor's degree in Biotechnology/ Life Sciences and have an academic attitude. In addition you possess excellent analytical skills. Since you will be active in different fields, you have broad interests. Your affinity with advanced computer systems and external databases is of course obvious. Proficiency in the Dutch as well as the English language is necessary.

As a person you are accurate and persistent and you possess good advising skills. In addition you are well able to function in a team.

The Reward

We offer a challenging and rewarding job in an innovative multinational company with lots of opportunities for personal input and development, an open and dynamic atmosphere and a 'never-stop-learning' culture. Terms and conditions of employment as well as fringe benefits are up to market standards.

The Procedure

For further information please contact:

- Jeannette Verbart, Director DSM IP Delft office, phone +31 (0)15 2792634 or
